Update on the ongoing highway works on A5013 Creswell Grove, A5013 Eccleshall Road and M6 Junction 14, Stafford.

This scheme forms highway improvement works associated with the 'Stafford Gate' commercial development on the land south of A5013 Creswell Grove. These works are being delivered by Alto Construct on behalf of the developer, Strawsons Property.

The Section 278 Creswell Grove scheme is progressing well and is approaching completion of the present phase of works, which is to provide a new traffic lane on Creswell Grove to the west of the M6 J14.

The final resurfacing works require overnight closures both ways of A5013 Creswell Grove from **19th to 23rd October 2026**. The 230m long full road closure, west side of M6 J14, will be implemented at 10pm on Monday 19th October until 6am on Tuesday 20th October. The A5013 will then reopen for eastbound traffic only during the day. The night-time road closures are then repeated over the nights of 20th - 23rd, until 6am on Saturday 24th October. Night-time works are preferred as it significantly reduces disruption to local businesses, residents and daytime road users, as well as reducing safety risks in relation to traffic leaving the M6 northbound at Junction 14. Access to individual properties will be agreed by the site team, emergency vehicles will continue to have access as required.

Completing these resurfacing works overnight in October will enable the current one-way road closure to be fully removed and the A5013 Creswell Grove to reopen to two-way traffic. This is planned for weekend of 31st October/1st November 2026.

Following this phase, works will continue to the east of Junction 14 to deliver a new pedestrian refuge and undertake some resurfacing works on the roundabout. Further communications will follow to detail the construction of the new pedestrian refuge traffic management requirements and dates.
